Assignment 1

Chotokhato Programming Camp 2024

June 24, 2024

Please submit your codes in the following google form - `https://forms.gle/ym1wsMX4Zor13V3x9`.

Task 1

Take two integers as input. Print the larger one of them.

Task 2

Take two integers as input. Print their difference. (Difference must be a positive integer).

Task 3

Take number of days as input. Print the total number of seconds in those number of days. For example there are `432000` seconds in `5` days.

Task 4

Swap the value of two variables without using another variable. (Hint: Math!)

Task 5

Take **three** variables as input. Now, print these three variables from the smallest to largest.
